

Pure Luxury, On Tap.

Restaurant-quality sparkling and still water,
right from your kitchen.

The Serenity Collection

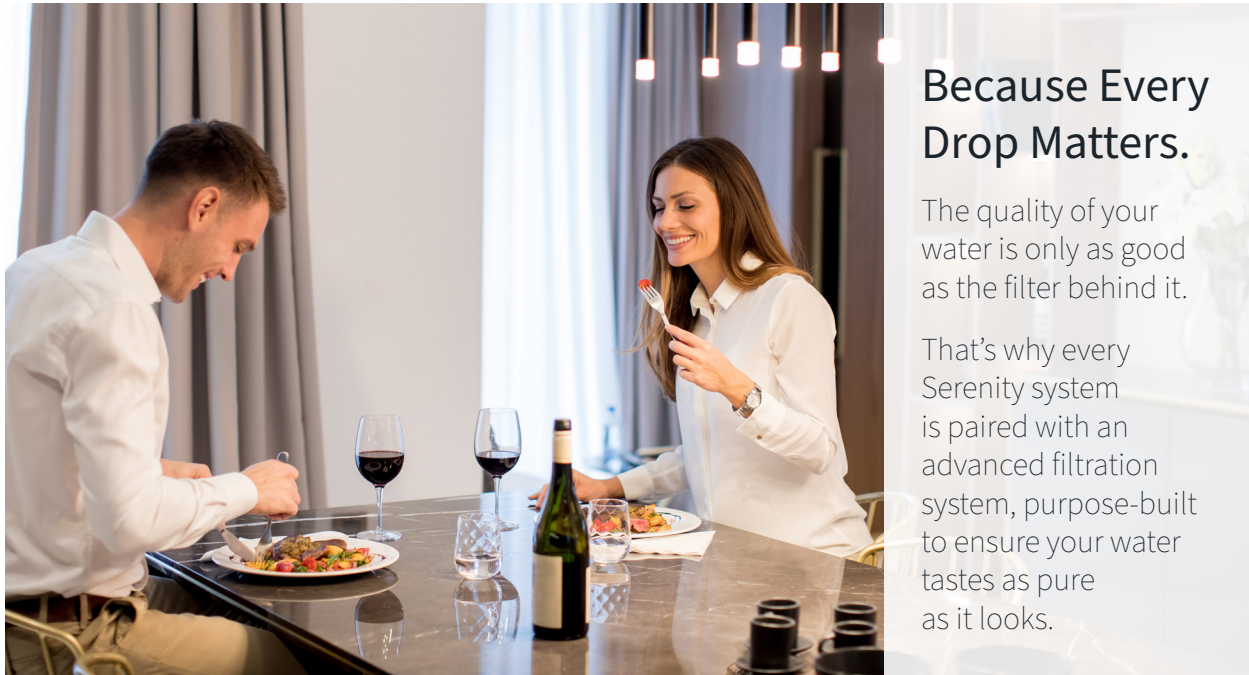

Hydration, Elevated.

Bring the experience of fine dining into your home.

With Serenity, you'll enjoy an endless supply of chilled still and sparkling water, all crafted with the same precision trusted by world-class restaurants and purified for exceptional taste. Every pour is filtered through an advanced filtration system, ensuring clean, crisp water free from impurities, odors, and aftertaste.

Sleek, efficient, and built for modern living, Serenity is the perfect addition to your kitchen, bar, or entertaining space.

Because Every Drop Matters.

The quality of your water is only as good as the filter behind it.

That's why every Serenity system is paired with an advanced filtration system, purpose-built to ensure your water tastes as pure as it looks.

Simply...

- Crisp sparkling water and refreshing still water, always on demand.
- Seamless integration into luxury kitchens and home bars.
- Sustainable, eco-friendly alternative to bottled water.
- Premium filtration for better-tasting, healthier water.

Luxury That's Better for the Planet

Say goodbye to single-use plastic bottles. Serenity gives you endless pure water without the waste. Complete installation kit includes a water filter system, water pressure reducer valve, CO2 regulator, leak block sensor, hose, and angle stop fittings. It's a smarter, more sustainable way to stay hydrated, saving fridge space while reducing your carbon footprint.

The Collection, Technology You Can Trust.

Serenity-X3

Three ways to refresh, one elegant system.

- Dispenses high quality filtered chilled sparkling, chilled still, and room temperature still water.
- Ideal for families and those who love to entertain.
- Compact design integrates into cabinets or utility spaces.

Serenity-CBRM

Effortless hydration, redefined.

- Dispenses high quality filtered chilled sparkling and chilled still water.
- Streamlined, energy-efficient design for minimalist luxury.
- Perfect for kitchens where space is at a premium.

Engineered for Performance. Built for the Future.

Serenity systems combine cutting-edge refrigeration with industry-leading filtration. Each system is powered by R290 eco-friendly refrigerant technology, stainless steel construction, and remote cooling. The result: pure, refreshing water and reliable cooling, all in one sleek, sustainable design.

- Eco-friendly R290 refrigerant for sustainable cooling.
- CR-12FC submicron water filter system for the highest quality water.
- Stainless steel build for durability and long life.
- Made in the USA by Crysalli, leaders in premium beverage systems.
